Proposed statement of work:

Approved: \_\_\_\_\_
Supervising Professor

Department Approved: \_\_\_\_\_
Director of Undergraduate Program

This form is to be executed by students in the Department of Computer Science and Engineering who have a supervised research position in the Department and who wish to earn credit as CIS 4915. It is expected the supervising professor and student will agree upon the course content and appropriate credit hours in advance of executing this contract. This form authorizes enrollment of the student. Prerequisites are COP 4530 and CDA 3201.

This completed and approved form must be signed by the Supervising Professor and Director of the Undergraduate Program. A student is allowed to count as Departmental elective credit a maximum of six (6) hours of CIS 4915 and/or any other supervised individual study (including CIS 4900 and CIS 4940) for S/U grade.
