Quality Enhancement Plan
2017 - 2018 Annual Report
EXECUTIVE SUMMARY: YEAR 3

USF’s Quality Enhancement Plan (QEP), the Global Citizens Project, is a comprehensive five-year plan to globalize the USF undergraduate experience in order to provide students with opportunities to learn and practice global competencies.

Three programmatic goals define the QEP:

- Global General Education (globalizing General Education courses),
- Global Pathways (globalizing the Majors), and
- Global Citizen Award (an undergraduate award to encourage students to engage in global experiences).

The primary focus of 2017-18 was the continued implementation of programs, processes, and procedures supporting the three QEP goals, including professional development and assessment, which are central to the plan. Specific accomplishments include:

- Collaborated with the General Education Council to incorporate GCP learning outcomes into all levels of USF’s Enhanced General Education curriculum.
- Certified 10 degree programs as Global Pathways.
- Certified 32 courses as Global Citizens courses.
- Awarded 92 students with the Global Citizen Award.
- Offered $159,500 in study abroad scholarships to 77 students.
- Offered 24 Global Faculty Fellowships, a Global Pathway Learning Community for 4 departments (7 faculty total), an Accelerated Global Pathway Learning Community for 4 departments (4 faculty total), 6 stand-alone workshops, and 11 one-on-one consultations.
- Administered the Global Perspective Inventory (GPI) to 168 students (1725 GPIs taken total).

The work completed in 2017-2018 indicates the university’s progress toward meeting the 2020 QEP performance targets.
