

UNIVERSITY of  
**SOUTH FLORIDA**  
Global and National Security Institute

WELCOMES

**DR. STEFANIE TOMPKINS**

**DIRECTOR**  
DEFENSE ADVANCED RESEARCH  
PROJECTS AGENCY

Join us for a **DARPA 101** conversation with the director of the cutting-edge defense and national security technology agency.

USF faculty, staff and students will receive a high-level review of the \$4B agency that drives pivotal investments in breakthrough military and national security technologies.

**DARPA** is always on the lookout for outstanding individuals who can meet the demanding needs of the agency's technical and support offices. **USF students** who may be interested in working with DARPA should definitely join this event, to learn more about the agency's work and potential opportunities.

Dr. Tompkins will also showcase DARPA's role in the national security of the United States, the technologies and projects it funds and the type of university research it's most keenly interested in.

FRIDAY  
SEPTEMBER 29  
9:00 AM
