

## Convert Your Room to a Super Single:

If you prefer to stay in your current assignment by yourself, we are now offering the opportunity to convert your current assignment to a super single. Converting your currently assigned room to a super single will allow full use of the double room without a roommate for the Fall 2020 or Spring 2021 semester. The second set of furniture will not be removed from your room. For your reference, please see the chart below for the new room rate if you choose to convert to a super single. Converting to a super single room is not required, we just wanted to provide you with the option.

Room Type	Double Rate	Single Rate
