Additional COVID-19 Testing Available

Beginning January 24, 2022, additional COVID-19 testing will be available on the USF Tampa campus through a private partnership with Lab Services.

A site will operate weekly at the USF Health Therapy Building (MDT) located at 3515 East Fletcher Avenue. The hours are 4-8 p.m. on Mondays, Wednesdays, and Fridays, and from 3-8 p.m. on Tuesdays and Thursdays. Please note this site is operated separately from USF Health or USF Student Health Services and anyone with questions should contact Lab Services at 888-757-2743.

During operating hours, the site is open to all and no appointment is required. Tests will be conducted at no cost to students, faculty and staff.

This will be a drive thru-testing site, but a station will also be provided for walk-ups. Individuals can access the testing site via Fletcher Avenue to USF Magnolia Drive. Signage will be present to direct vehicles through the test site and to the exit when tests are completed. A QR code will be present on signage, allowing individuals to scan and complete their screening form before receiving the test.
