

# KALTURA PLAYLISTS Organizing Your Media

Playlists allow you to merge multiple videos into a single player with a navigation menu. This is handy if you have associated videos you would like to keep in a series or simply want to save space on your Canvas page. Here is an example:

		Create Your Instructor Presence Plan 4 videos	M

## Creating a Playlist

01

Select Course Kaltura in your Canvas course main menu at the left of the screen.

If you do not see Course Kaltura in your main menu you will need to enable it within your course navigation. This can be disabled (if preferred) after you create and embed the Playlist.

## Embedding a Playlist

Once your playlist has been created, you can embed it on a Canvas page (or discussion, quiz, assignment, and announcement) in a similar manner to embedding a Kaltura video using the Rich Content Editor.

01

From the Rich Content Editor, choose the **plug-in icon** and select **Embed Kaltura Media**. If you don't see it right away, select **View All** and choose it from the dropdown list that appears.
