

USF Community,

USF will soon be upgrading the process for joining 'eduroam' WiFi on all campuses. Beginning May 12, when you join 'eduroam' for the first time or when its time for your device to be renewed to use 'eduroam', you will be taken to a new website to complete the registration. The upgraded process is designed to be easier for new and existing students and employees to use. If you've used 'eduroam' in the past, the web site will appear different than before. Please be aware of these changes.

**No action is required at this time.** You will be automatically redirected to the new registration process the first time you use 'eduroam' or when your current device registration is up for renewal. You will need your USF NetID and password to join 'eduroam'.

If you have any questions, please contact the IT Service desk: Chat: [itchat.usf.edu](https://itchat.usf.edu) Email: [help@usf.edu](mailto:help@usf.edu)
