Dear USF Community,

During the fall semester, I launched a task force that would develop the “Principles of Community” that guide how we treat each other with respect, as a precursor to a larger strategic renewal process we will embark upon in the coming year.

It is imperative that these principles authentically reflect your experiences and perspectives as a valued member of the USF community.

The task force has created a three-question survey to help inform this process. Find the survey here.

We have also planned town hall forums on each of our three campuses, on Jan. 21 in Tampa, Jan. 23 in St. Petersburg and Jan. 27 in Sarasota-Manatee. We hope to solicit even more of your thoughts, perspectives and ideas. We hope you will join us.
I would very much appreciate your participation in this important project. Learn more about the Principles of Community Task Force at [www.usf.edu/principles](http://www.usf.edu/principles).

Thank you,

Steven C. Currall
President and Professor
