

ECHO II Livescribe for Apple Devices

Echo II Livescribe Pen for iPhone Operating System (iOS)

1. Download the Livescribe+ application from the App Store.
2. Once downloaded, open the app and the option to connect to the Smartpen will appear.
3. Click on the option to connect the Smartpen and follow the directions.
4. Once paired, you may use the Smartpen with the given notebook.

Echo II Livescribe Pen for Macintosh Operating System (macOS)

1. Go to <https://us.livescribe.com/>.
2. Under the resources tab, click on Livescribe+
3. Scroll down and click the download under the macOS option.
4. Once downloaded, open the file, and follow the installation directions.
5. Once the software is set up, you may plug the pen in and begin transferring notes.

NOTE: a USB-C to USB adapter is required to plug an ECHO II into a Mac device.
