

*Priority registration is an accommodation approved by Student Accessibility Services based on appropriate disability documentation. This accommodation allows the student to sign up for classes on the first day of registration. As with other accommodations, the student is responsible for taking advantage of this priority registration accommodation by clearing any registration 'Holds,' prior to the first day of registration.*

### **Which classes should I register for?**

Plan your desired schedule and meet with your academic advisor for your college/department. Also, if necessary, schedule an appointment to meet with your SAS coordinator to discuss any disability issues related to your schedule.

Always plan a schedule that facilitates accessing your accommodations (e.g., if one of your accommodations is extended time for exams, do not register for back to back classes. Or, possible medication issues may preclude registering for morning classes.)

### **OK, I've seen my advisor, planned my classes and have allowed for my accommodations. Now how do I register?**

### **Problems/Questions**
