### **Section A: Information about Required Immunizations**

**MMR Vaccine** – Required for students born after Dec. 31, 1956. This combination vaccine protects against measles, mumps, and rubella. Two doses are required for entry into the state university system of Florida. The first dose must be administered after 1st birthday. The second dose must be administered at least 30 days after the first dose.

**Hepatitis B Vaccine** – Center for Disease Control (CDC) recommends this vaccine series. Students enrolled in academic health programs are required to have this vaccine. Students declining this vaccine must read about Hepatitis B to understand the possible risk of not receiving this vaccine at [www.cdc.gov/vaccines/hcp/vis/vis-statements/hep-b.html](http://www.cdc.gov/vaccines/hcp/vis/vis-statements/hep-b.html)

**Menactra/MCV4 (Meningococcal Meningitis Vaccine)** – The Advisory Committee on Immunization Practices (ACIP) recommends this vaccine for students living in campus residence halls. The CDC also recommends this vaccine series. Students enrolled in academic health programs are required to have this vaccine. Students declining this vaccine must read about Meningitis to understand the possible risk of not receiving this vaccine at <https://www.cdc.gov/vaccines/hcp/vis/vis-statements/mening.html>

**Tuberculosis Screening: Required for students using an address outside the U.S. at the time of application and academic health programs** – A Tuberculosis Skin Test by PPD or Mantoux or Blood Test (QFT or Tspot) is required within six months prior to the 1<sup>st</sup> semester you physically attend classes on campus. If the Skin Test and/or Blood Test is not available where you reside, screening must be done upon your arrival in the US.

PPDs must be read between 48-72 hours after being administered. The result must be listed in “mm” as a single digit number and the results must indicate if negative or positive.

For the blood test, submit quantitative lab report that includes your name, date of birth and healthcare provider or lab's contact information.

If the PPD skin test OR blood test is positive, submit a physician signed copy of the chest X-ray report and quantitative lab report.

**Section B:** To be completed by a medical facility, clinic, or health department **IF** official vaccination records are not attached.

**Section C:** Medical consent- signature of parent/legal guardian required for students under the age of 18.
