

## New Students

Under the consolidated university, how do I change campuses?

Any newly admitted undergraduate (UG) student who wishes to change campus BEFORE the beginning of their admit term must do so via the Office of Admissions by updating their admissions application. Please note that these requests may NOT be granted due to defined enrollment constraints by campus or college. New UG students will pay fees according to a consolidated fee structure and will NOT experience any impacts when changing campus. For changes AFTER the term has begun, UG students must contact their College.

## Continuing Students (Undergraduates)

Under the consolidated university, how do I change campuses?

There are no current policies or regulations that restrict or govern when or why an undergraduate (UG) student can change campuses between Sarasota-Manatee, St. Petersburg, or Tampa. Continuing UG students should contact their current College to discuss any change of campus request. Remember: you do NOT need to change campuses to register for courses on a different USF campus.

**IMPORTANT:** Any change of campus CAN impact many student services; be sure to talk to different offices BEFORE making this decision. These offices include, but are not limited to:

- **FEE STRUCTURE:** Continuing UG students are being allowed to continue to pay fees based on the previous fee structure at their local campus – changing campuses will change the fee amounts charged. More information is forthcoming on the Student Financial Services website: <https://www.usf.edu/business-finance/controller/student-services/>.
- **SCHOLARSHIPS:** If a UG student has a campus-specific scholarship, it may be impacted by a change of campus including, but not limited to, adjusted award amounts or the loss of eligibility.
- **HOUSING:** Changing campus does not automatically move housing assignments. If your change in campus prompts a desire to change your on-campus housing assignment, please contact the Housing & Residential Education office of your current campus to inquire about the process and options available BEFORE changing ([housing@usf.edu](mailto:housing@usf.edu) for Tampa or [housing@usfsp.edu](mailto:housing@usfsp.edu) for St. Petersburg).
