**BSC 2085/BSC 2086 or BSC 2093/BSC2094 can be taken in place of PHY2053/PHY2054. Consult a USF advisor to determine the most suitable option for student specific goals.

The following is additional information for the Biomedical Sciences major:

- If all pre-requisite courses outlined in the first two years are not completed before transferring to USF students should expect to spend longer than two years at USF to finish their bachelor's degree.
- This major is a great option for those students who want to pursue a health profession school after graduation such as medical school, veterinary school, dental school, physical therapy school, physician assistant, etc.
- Students should not take MCB2000/L or MAC2233 at the state college institution.
- Classes for this major are only offered in person and mostly during the afternoon.

Students interested in the biomedical sciences major may contact chemadvise@usf.edu

For general transfer advising inquiries please contact transfer-advising@usf.edu
