USF World created Global Discovery, a digital resource, to highlight opportunities for engaging with the global research community. Please feel free to contact USF World for further information about Global Discovery at aavalon@usf.edu.
In support of USF’s mission as a globally engaged university dedicated to student success, USF World has developed an online application that maps the institution’s international partnerships, as well as the global mobility of faculty, students, staff, and alumni.

The Global Discovery Hub presents a comprehensive portrait of the university’s global footprint. USF is one of only a handful of organizations around the world able to provide a comprehensive, data-driven, interactive system for highlighting how the USF community impacts the world.

The Global Discovery Hub houses the university’s international partnership agreements, more than 1,200 faculty profiles from across USF, and allows for searches based on geography, discipline, or keyword.

Take a look at the university’s global presence as you’ve never seen it before. Faculty are encouraged to review their profiles and update their international activities.

Click here to access the Global Discovery Hub: www.usf.edu/gdh
Dear USF Faculty and Staff,

Are you planning on traveling internationally this year? The USF International Travel Authority Policy #10-507 requires that all USF faculty and staff register their related international travel with the USF World Education Abroad Office or with USF Health.

Faculty related travel is any international activity tied to an individual’s status as an active USF employee, regardless of the source of funding for the travel. This may include international travel related to a conference, an organization, program requirement, elective, research project, service-learning project or study abroad. However, it does not include leisure travel.

Once you are registered, you will be enrolled in USF’s mandatory International Health and Evacuation Coverage offered by United Healthcare Global, a leading industry provider. Insurance coverage is provided while abroad. You will automatically benefit from USF World’s 24/7 International Assistance Line and International Risk and Security Office services. A nominal one-time charge is assessed for security and safety monitoring. To learn more, contact USF World Education Abroad Office contact: GlobalTravel@usf.edu

With our best wishes for successful travel,
Dr. Kiki Caruson
USF Interim Vice President, USF World

TRAVEL & COVID-19
Please review the Guidance for University Travel. Essential Travel Abroad may still be approved in Spring and Summer 2021. Make sure you understand the new Terms and Conditions for Traveling during this pandemic. Stay up to date with conditions in the country you hope to travel to.
USF World is committed to linking faculty, students, and staff with resources available across USF to promote and support international scholarship and global engagement. Members of the larger USF community may access an array of resources from USF World including information about virtual global exchange, the Fulbright Program, international travel policies, research & funding resources, and USF's global engagement.

Take a look at USF’s global footprint at the Global Discovery Hub. The Hub features USF’s international partnerships and detailed information regarding faculty activities across the globe. Search by country, region, institution, college, department or keyword! More than 1,200 USF faculty profiles and 300 international partnership agreements are accessible in the database. You can also access information about student mobility and learn about USF’s global partnership agreements.

Learn more about sponsoring an agreement or hosting an international delegation as well in this section For Faculty. You may also visit the Global Directory for more information on USF research centers, institutes, and programs that contain a global dimension.

EDUCATION ABROAD

TAMPA

Education Abroad offers a variety of study abroad opportunities for students and faculty in over 25 countries, these include: semester exchanges, dual degree programs, summer and short term programs, international internships, and service learning. Programs range from one week to one year and award academic credit. Education Abroad facilitates the incoming and outgoing exchange process and works closely with our international partner universities to develop new academic programming and exchanges.

The Education Abroad Office provides extensive planning assistance for both students and faculty program leaders, including pre-departure orientation sessions. The staff members have extensive experience in study abroad and are able to offer seasoned, insightful advising and information to anyone considering or planning a study abroad experience.

Nestled along beautiful Sarasota Bay, the scenic University of South Florida Sarasota-Manatee Campus offers a true sense of place. Between world-renowned beaches, abundant nightlife, and the best in arts and entertainment, there’s never a lack of things to do or places to explore in Sarasota and Manatee counties. Likewise, Sarasota-Manatee Campus offers a variety of global opportunities for students and faculty.

USF World at Sarasota-Manatee staff members support international students and scholars, promote study abroad and other types of global experiences, and support faculty global engagement on USF Sarasota-Manatee Campus. The office manages USFSM Campus faculty-led programs and provides extensive planning assistance for both students and faculty involved in study abroad.

For scheduled appointments on specific programs at USF Sarasota-Manatee Campus contact Dr. Amela Malkic: amela@usf.edu

Upcoming events at USF Sarasota-Manatee Campus:

Virtual Study Abroad Info-Sessions (Wednesdays starting 8/24/2020)

The Virtual Global Exchange Program at USF is designed to enhance student learning through instructional opportunities intentionally designed to connect USF students with their peers abroad. Intentionally designed shared experiences facilitate online intercultural exchange that is integrated into existing courses and curricula. Virtual exchange allows students to collaborate with peers from around the world on authentic tasks and challenges through a variety of learning opportunities that do not require international travel. These experiences also facilitate faculty professional development, deepen new and existing institutional collaborations, and provide the opportunity to network with colleagues from around the globe — mirroring the benefits to students.

Virtual global experiences are accessible to all students, thus enhancing diversity and inclusion in global learning. These experiences may be situated in any course at any level and combine the deep impact of intercultural dialogue and exchange with the broad reach of digital technology. They encourage interdisciplinary application of knowledge, enhance intercultural awareness and competency, and represent a high impact practice for teaching and learning. Faculty work in tandem with a partner(s) overseas to develop curriculum focused assignments and activities that reflect the intended learning outcomes of their courses. Students gain practical technical and intercultural communication skills by virtue of the virtual collaboration.

What does Virtual Global Exchange look like?

Key components of a virtual global exchange:
- Technology-enabled people-to-people dialogues and collaboration facilitated as part of an academic course over a period of time not less than five weeks.
- Use of technology and media platforms to enable deep, interactive learning.
- Meaningful intercultural experiences between USF students and their peers abroad facilitated by faculty and instructors who receive training and support.

Professors/Instructors work together to:
- Define student learning goals
- Determine the length of the interaction
- Design comparative and collaborative activities
- Select methodology and technology
- Monitor student work and learning

Students work together during the course(s) to:
- Develop an effective international team
- Discuss issues and course content
- Complete a project-based assignment as part of their coursework
- Reflect on both the academic content of the course and the intercultural exchange that takes place

The shared global project or component can/will:
- Be any discipline; interdisciplinary pairs work well
- Use any technology platform that serves the learning goals and is approved by the respective universities
- Employ the Collaborative Online International Learning (COIL) methodology and be approved by USF Innovative Education
- Encourage active student learning and teamwork
- Include an emphasis on cross-cultural interactions and understanding
- Be any length between 5-15 weeks long
- Are a graded activity in each participating class

For more information, please contact Rene Sanchez: rene@usf.edu
USF World can also support faculty in building digital links with classrooms and partners across the world:

1. **Virtual Global Exchanges (VGE):** Work with a faculty member abroad to build a shared activity between your classroom and theirs. Whether a single assignment or an entire module or course, link students together with a joint learning experience.

2. **Integrated Virtual Activities:** From virtual tours of the world’s great museums to guest lectures and cultural exchanges, build an international experience in to your existing course.

3. **Virtual Study Abroad:** Sometimes travel to the site of interest is not possible-- but that doesn’t mean the experience isn’t possible. Work with Education Abroad to design and package an international experience your students can have from their laptops.

For more information, please contact Nancy DiBella at: ndibella@usf.edu

**Please Note:**
USF World takes appointments for TEAMS Meetings, too!

**Advising Online:**

THE DREYFUS PRIZE IN THE CHEMICAL SCIENCES

The Dreyfus Prize in the Chemical Sciences is awarded to an individual in a selected area of chemistry to recognize exceptional and original research that has advanced the field in a major way. The prize is awarded biennially and consists of a monetary award of $250,000, a medal, and a certificate.

Selection
The prize is awarded to an individual. If the cited advance is substantially interdisciplinary, those aspects that represent original chemistry should be clear.

Eligibility
The prize is open to international nominations. There is no restriction on the number of nominees from a given institution, nor is institutional approval required. Present Dreyfus Foundation Directors, Advisors, and consultants, previous Dreyfus Prize winners, and Nobel Laureates are not eligible.

Nomination Procedure
Any person may nominate a candidate for the Dreyfus Prize. Self-nominations are not accepted.

Required Information:
Deadline: December 3, 2020
Nomination package: The nomination should be formatted on 8 1/2 x 11-inch paper, using 12-point font size. Assemble the five items below as a single PDF and email it to prize@dreyfus.org.
1. The online nomination form
2. Nomination letter (three-page limit)
3. CV that includes highest degree and advisor (five-page limit)
4. List of up to ten total papers and/or patents relating to the nomination
5. Provisional citation (30-word limit)

Letters of support: Up to three letters of support are accepted for each nomination. Letters should be PDFs, formatted on 8 1/2 x 11-inch letterhead, using 12-point font size, and be no more than three pages. These letters are to be sent directly to the Foundation at prize@dreyfus.org. Note, letters of support should not be received with the nomination package.
Funding: Varies per project.

Duration: Varies per project.

Programs of Interest: International Programs, Individual Grants, Coordinated Programs, The Sciences, Humanities, Student Funding, and Faculty Research Funding.

Deadlines: Varies.

DFG Call for Proposals: http://www.dfg.de/en/research_funding/announcements_proposals/index.jsp

To learn more about DAAD, visit the English website of DAAD Germany: www.daad.de/en

FUNDING FOR GERMANY

Various organizations in Germany fund research projects and individual researchers. The largest organizations that award financial support to individuals are the German Research Foundation (DFG) and the German Academic Exchange Service (DAAD). In addition to these large funding organizations, many other public and private bodies provide financial support for science and research. Important donors include not only Germany's federal and state governments, but also the European Union.

DFG - Deutsche Forschungsgemeinschaft: The “Calls for Proposals - Information for Researchers” website contains various calls for grants and funding of both national and international contexts - includes Ongoing Calls for Proposals and General Information for International Cooperation.

DAAD - The German Academic Exchange Service: The Deutscher Akademischer Austauschdienst (DAAD) / German Academic Exchange Service is a private, publicly funded, self governing organization of higher education institutions in Germany. DAAD promotes international academic relations and cooperation by offering mobility programs primarily for students and faculty. Offers many scholarships and funding opportunities for Undergraduate, Graduate, PhDs and Postdocs, as well as, Faculty and Researchers.
THE ARTS

EUROPEAN ART HISTORY

Institutions are required to apply for the History of Art Grant Program using the Foundation’s online grantmaking portal. Potential grantees will first submit a Letter of Inquiry and, if invited, complete a full application online.

History of Art Grants Program:

- Supports scholarly projects that will enhance the understanding and appreciation of European art and architecture.
- Grants are awarded to non-profit institutions with 501(c) 3 status, based in the United States, including supporting foundations of European institutions.
- These are competitive grants. Please see the Past Grants and Annual Reports pages for past awards and typical levels of funding and review our Grants FAQs for answers to common application questions.
- The first step in the application process is the submission of a Letter of Inquiry (LOI) describing the proposed project, via the Foundation’s online grantmaking portal. Please consult the How to Apply page for LOI submission dates.
- If your LOI has been accepted, you will be invited to submit a full proposal via the online grantmaking portal.

The History of Art program supports scholarly projects that will enhance the appreciation and understanding of European art and architecture. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, museum exhibitions and publications, photographic campaigns, scholarly catalogues and publications, and technical and scientific studies. Grants are also awarded for activities that permit art historians to share their expertise through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, and other professional events.

European Art History and European Architecture

Deadline:
October 1, 2020
by 5:00 PM EST
The Council of American Overseas Research Centers (CAORC) offers research fellowships to doctoral candidates, postdoctoral scholars, and independent scholars all year round.

**CAORC offers two fellowship programs:**

- **The CAORC National Endowment for the Humanities Senior Research Fellowship Program** supports advanced research in the humanities for U.S. postdoctoral scholars, and foreign national postdoctoral scholars who have been residents in the U.S. for at least 3 years. Scholars must carry out research in a country which hosts a participating American overseas research center. Fellowship stipends are $5,000 per month for four to six consecutive months. This program is funded by the National Endowment for the Humanities (NEH) under the Fellowship Programs at Independent Research Institutions (FPIRI).

- **The CAORC Multi-Country Research Fellowship Program** supports advanced regional or trans-regional research in the humanities, social sciences, or allied natural sciences for U.S. doctoral candidates and scholars who have already earned their PhD. Preference will be given to candidates examining comparative and/or cross-regional research. Applicants are eligible to apply as individuals or in teams. Scholars must carry out research in two or more countries outside the United States, at least one of which hosts a participating American overseas research center. Approximately nine awards of up to $11,000 each will be given. Funding is provided by the U.S. Department of State’s Bureau of Educational and Cultural Affairs. Each year the highest ranking Multi-Country Fellowship applicant will receive an additional $1,000 toward travel expenses through the Mary Ellen Lane Multi-Country Travel Award, named after CAORC’s founding director, Dr. Mary Ellen Lane.

**More Information:** [https://www.caorc.org/fellowships](https://www.caorc.org/fellowships)
INTERNATIONAL AFFAIRS FELLOWSHIP

Established in 1967, the International Affairs Fellowship (IAF) is the hallmark fellowship program of the Council on Foreign Relations (CFR). It aims to bridge the gap between the study and making of US foreign policy by creating the next generation of scholar-practitioners. The program offers its fellows the unique chance to experience a new field and gain a different perspective at a pivotal moment in their careers. Academics are thus placed in public service and policy-oriented settings, while government officials are placed in scholarly settings.

Over the years, the IAF program has produced approximately six hundred alumni that span the who’s who of the US foreign policy community, including a former secretary and several undersecretaries of state, US ambassadors to NATO and the United Nations, and many other influential leaders in government, academia, and the private sector.

Applicants must:

• Be US citizens
• Be mid-career professionals
• Possess a strong record of professional achievement
• Have a firm grounding in and a demonstrated commitment to the field of foreign policy
• While a PhD is not a requirement, applicants must hold at least a bachelor’s degree

The duration of the fellowship is twelve months, preferably beginning in September. The program awards a stipend of $100,000. Fellows are considered independent contractors rather than employees of CFR and are not eligible for employment benefits, including health insurance.
The Peace Corps Coverdell Fellows Program at USF is a Graduate Fellowship program awarding financial assistance to selected returned Peace Corps volunteers pursuing a master’s degree. All Coverdell Fellows complete internships in under-served communities in Tampa Bay while working with faculty supervision. To qualify for a Coverdell Fellow, applicants must have completed their Peace Corps service and meet the admission requirements of their specific College:

**College of Public Health Fellows** successfully completing the program will receive a Master of Public Health (MPH) or Master of Science in Public Health (MSPH).

**College of Arts and Sciences, Department of Anthropology Fellows** successfully completing the program will receive a Master of Arts in Applied Anthropology or a PhD in Applied Anthropology.

**College of Engineering, Department of Civil and Environmental Engineering Fellows** successfully completing the program will receive a Master of Science or a PhD in Civil Engineering or in Environmental Engineering with an International Development concentration.

**The Patel College of Global Sustainability Fellows** successfully completing the program will receive a Master of Arts in Global Sustainability, with a concentration in Building Sustainable Enterprise, Climate Change & Sustainability, Coastal Sustainability, Entrepreneurship, Food Sustainability & Security, Sustainable Energy, Sustainable Tourism, Sustainable Transportation, or Water.

**College of Nursing Fellows** successfully completing the program will receive a degree in the Accelerated Second Bachelor’s Degree (SBN) program within the College of Nursing.

---

**The Peace Corps** provides an unparalleled opportunity to learn about other people, develop language and career skills, and help improve the quality of life for people in developing countries. The goals of the Peace Corps are to promote peace and stability through education and training; foster understanding of other peoples among Americans; and enhance other peoples’ understanding of Americans.

**The Peace Corps Coverdell Fellows Program**, at the University of South Florida, is a Graduate Fellowship program awarding financial assistance to selected returned Peace Corps volunteers who are pursuing a master’s degree. All Coverdell Fellows will complete internships in under-served communities in the Tampa Bay Area, while working under the supervision of faculty. The Fellows Program will also serve to advance the Peace Corps’ Third Goal: To promote a better understanding of other peoples on the part of Americans. Currently, there are 5 Coverdell Fellowship Programs at USF: College of Public Health; College of Arts and Sciences, Anthropology; College of Engineering, Civil & Environmental Engineering; The Patel College of Global Sustainability, and The College of Nursing.

**The Peace Corps Prep (PC Prep)** program prepares undergraduate students for international development fieldwork and potential Peace Corps service. To accomplish this, students build four core competencies through interrelated coursework, hands-on experience, and professional development support. Peace Corps Prep is working closely with the Global Citizens Project to ensure a continuous option for global engagement with undergrads who wish to pursue the Peace Corps Prep Certificate.

More information about USF Peace Corps and Peace Corps Prep Program, please contact Dr. Avalon at aavalon@usf.edu.
